

State University of Bari “Aldo Moro”, Italy
**World Academy of Growth Factors &
Stem Cells in Dentistry**

“Basic Approach to Implant Dentistry”

3 Day Masterclass with intensive theoretical and clinical training
Athens, Greece 16, 17, 18 May 2019

Tutors:

Prof. Francesco Inchingolo, Prof. Ioannis Georgakopoulos, Dr. Dora Dailianna,
Dr. Nick Andrianatos, Dr. Panos Georgakopoulos, DNP Sofia Dimopoulou

Aim:

Provide the general dentist with limited or no knowledge in implantology step by step with the innovative implant placement and bone regeneration techniques.

3 day Masterclass

First and second day we will have theoretical courses in the morning with lectures from esteemed professors on basic implantology and workshop with implant placements on artificial jaws. Surgical live cases start in the afternoon.

The theoretical classes will include radiology examination and training with panoramic and CBCT, patient diagnosis and true scenario debate confrontation.

Participants will be treated as if they have never placed implant before and will speed learn how to place an implant and the clinical parameters they must take under consideration.

First & second day afternoon and third full day will be only surgical cases where the students will observe and learn step by stem the implants placement procedures live on patients.

Coffee and lunch will be served for free

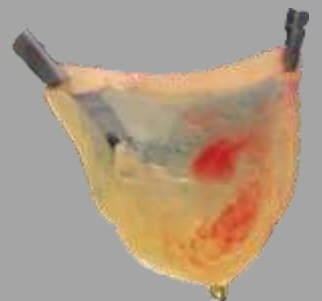

Certificate

The course will also provide certificate from:
WAGRO and "ALDO MORO" Bari University, Italy.

Program content:

Bone biology & osseointegration
Panoramic X-ray and CBCT in the dental implant treatment plan
